Nested Attributes com Devise

Member

```
accepts_nested_attributes_for :profile_member
```

Routes

```
devise_for :members, controllers:  
{registrations: 'members/registrations'}
```

Controller

```
rails g controller members/registrations
```

Controller

```
# GET /member/sign_up
def new
  build_resource({})
  resource.build_profile_member
  respond_with self.resource
end
```

Controller

```
<%= f.fields_for :profile_member do |profile_fields| %>  
  <%= profile_fields.label :first_name %>  
  <%= profile_fields.text_field :first_name %>  
<% end %>
```

View

```
before_filter :configure_permitted_parameters
```

```
protected
```

```
def configure_permitted_parameters
  devise_parameter_sanitizer.for(:sign_up) {
    |u| u.permit(:email, :password,
      :password_confirmation,
      :profile_member_attributes => :first_name,
      :second_name) }
end
```
